C) ALTERNATIVE PERSONAL SERVICES (Services in place of PAS hours)

Provide a brief description below of the service you plan to use alternative services funds and the estimated cost. Alternative personal services are things that you can purchase to provide support in place of personal assistance hours? The use of these funds should be reflected by a reduction of allowed personal assistance hours on the Individualized Budget Form. (e.g. meals on wheels). Expenditures must be approved before use of the funds by KHPA WORK Program Manager.

I understand that:

- The Allocation funds are to be used to fund activities necessary to support my independence. Carry-over funds not used for Personal Assistant Services or Fiscal management fees are to be moved to the savings account. The Carry-over funds will be used only for supports that are listed and approved on the Plan for Independence.
- WORK participants must not turn in timesheets in amounts more than the monthly allocation.
- If my eligibility for WORK ends and there are still remaining funds in the accounts I agree to return the funds to the Kansas Health Policy Authority.
- Misuse of the funds provided by Medicaid in the monthly *WORK* allocation for personal services is considered Medicaid fraud. It is my responsibility to report misuse of these funds to the *Working Healthy/WORK* Program Manager at the Kansas Health Policy Authority (KHPA).
- Both the participant and the attendant must sign time sheets and time sheets with original signatures must be on file with the WORK fiscal manager.
- Copies of this approved budget may be shared with the fiscal manager, assessment contractor, and agencies that I have chosen to provide supports and services to me.
